

Join us at booth #2439 at ASCRS

Meet the Experts

One-on-one conversations with Nada Shamie, MD and Ike Ahmed, MD

Connect with peers to enhance your knowledge of the OMNI® Surgical System and SION® Surgical Instrument. These one-on-one conversations are an excellent opportunity to ask questions and gain valuable insights about best practices, patient selection, and procedural techniques. Bring your questions, case discussions, and challenges—this is an excellent opportunity to learn from the best.

Neda Shamie, MD

Los Angeles, CA

Friday, April 25

3:00 pm - 3:30 pm

Sight Sciences Booth 2439

Ike Ahmed, MD

Salt Lake City, UT / Ontario Canada

Saturday, April 26

1:30 pm - 2:00 pm

Sight Sciences Booth 2439

Scan the QR code or visit sightsciences.com/ascrs to learn more.

The OMNI® Surgical System is indicated for canaloplasty (microcatheterization and transluminal viscodilation of Schlemm's canal) followed by trabeculotomy (cutting of trabecular meshwork) to reduce intraocular pressure in adult patients with primary open-angle glaucoma. The SION Surgical Instrument is a manually operated device used in ophthalmic surgical procedures to excise trabecular meshwork. The SION Surgical Instrument is a sterile, single use device. Visit omnisurgical.com/ifu and sionsurgical.com/ifu to see the instructions for use, warnings, precautions, and adverse event information. All presenters are paid consultants of Sight Sciences. This event is not affiliated with the official program of ASCRS 2025. © 2025 Sight Sciences.
